V300 Trinsic™ Series Sliding patio door

Merge your interior and exterior spaces with our V300 Trinsic™ Series sliding patio door. Topping out at 16 feet wide by 8 feet high and featuring the narrow profiles that our V300 Trinsic™ Series is known for, this vinyl sliding patio door offers fantastic views to the outside without skimping on functionality. The V300 Trinsic™ Series sliding patio door is easy to operate, durable, and energy efficient.

What you can expect

MODERN, SLIM FRAME DESIGN

The V300 Trinsic™ Series sliding patio door boasts a sleek, contemporary design with a narrow frame that maximizes the glass area. This design choice not only enhances the aesthetic appeal by offering expansive views but also allows for more natural light to fill the space.

BLACK CAPSTOCK TECHNOLOGY

The V300 Trinsic™ Series utilizes advanced co-extruded capstock technology, providing a durable, high-performance black finish. This technology enhances the doors' resistance to fading, chalking, and scratching, ensuring long-lasting beauty and minimal maintenance.

SEAMLESS TRANSITIONS

The V300 Trinsic™ Series sliding patio door features a newly designed squared-off handle that adds yet another modern element to the door's look allowing your view to take center stage. Flood your home with natural light while keeping weather and noise out.

Engineered to perform

- Available in two-, three-, and four-panel configurations
- SunCoat® Low-E2 glass coatings come standard on the V300 Trinsic™ Series for added energy performance with optional argon fill
- Custom made to your home's exact measurements and able to achieve dimensions of up to 16 feet wide by 8 feet high
- Made from durable, low-maintenance vinyl, resistant to moisture, warping, and corrosion for lasting performance
- Designed for new construction or replacement applications
- The V300 Trinsic Series comes with Lifetime Limited Warranty. Full Lifetime Warranty is also available as an optional upgrade for a fee and must be selected at the time of purchase

Energy efficient glass

Able to meet ENERGY STAR® requirements in all four climate zones. Our dual-pane insulated glass package options help save on heating and cooling costs while enhancing home comfort.

- In cool weather, insulated glass provides outstanding thermal performance to keep interior glass surfaces closer to room temperature, eliminating cold spots near doors
- In warm weather, it helps reduce solar heat gain and minimize glare to improve interior comfort

GLASS PACKAGE	U-VALUE	SHGC	ENERGY STAR ZONE
SunCoat Low-E	0.33	0.30	
SunCoat Low-E with Flat Grid	0.33	0.27
